

### **LOCAL MEDICAL SPECIALISTS**

The following list of health care providers has been compiled by the Health Unit. Practitioners are included in this list after review by the Regional Medical Officer or Foreign Service Health Practitioner. The doctors on this list generally have been trained overseas, are familiar with American medical care, and have a reasonable command of English.

The list is not meant to be exhaustive or definitive nor does it represent either a guarantee of competence or endorsement by the Department of State or the American Embassy. Inclusion indicates that these health care providers have been utilized by the American community in the past.

Retention on this list depends on a combination of factors including availability, training, and positive assistance in previous consultations etc. Patient feedback, both positive and negative, regarding their experience with local health care providers, is always welcome and provides additional information to assist in expanding or contracting the following list.
